

Assistance

A
punctual, in-depth and updated knowledge of law requirements, standards and regulations is a fundamental point in the management of themes such as safety and quality.

ECO has
developed for companies an offer of complete assistance. It consists of all entries and stages which would normally involve for the company a substantial burden in costs, time and resources with no certainty of success:

Ready and competent
specific assistance;
Management of the
periodical verifications, with deadlines control;
Personalized verifications
management for companies with more than one branch or subsidiary over the
territory;
Absolute transparency.
